

# Calibration & Preventive Maintenance

Improving Efficiency and Compliance

## Novatek CPM Features

Novatek CPM provides regulated laboratories with the functionality to manage their equipment and instrument assets within a regulated environment, and to maintain all the associated records of calibration & maintenance.

Track and manage calibration and preventive maintenance records for testing instrumentation and equipment in a compliant environment.

Support for 21 CFR Part 11 and other key regulatory requirements.

Register equipment, define tests to ensure equipment is within specification.

Generate labels and equipment lists for calibration

Control inventory of spare parts used for instrument maintenance.

Support for interval, usage and event based calibration.

Retain Calibration & Master Standards information.

Configurable reporting & query tools for data retrieval and knowledge management.

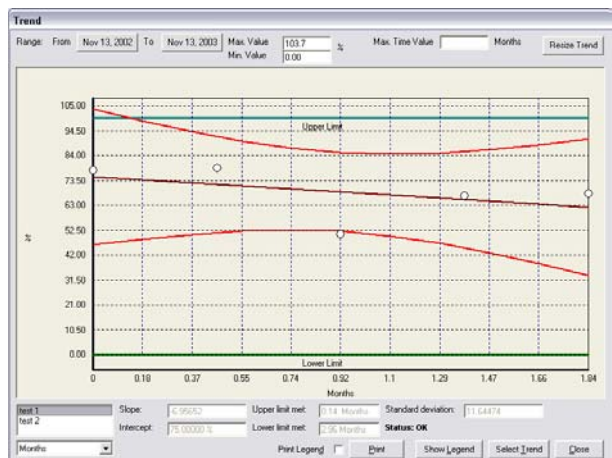

ID	Date	Capital Asset	Description	Assigned User	Department	Room	Type	Equipment ID	Model	Calcat	Mfg Expiry	All Date	Custom 11	Cost
1	Nov 14, 2003	122	Equipment A	inone	PHD	Compression	PH			No	inone	Nov 14, 2003

## Novatek CPM Benefits

Reduce Instrument Downtime.

Predict failures before they occur.

Save costs on spare parts and instrument redundancy.

Increase the efficiency of the service group.

Ensure all tests are performed in a compliant fashion.
